"Working with Kathy Morris was a breeze! She listened to what we wanted in our home. She has current and imaginative ideas, connections for supplies and works painlessly with contractors. When you tell your builder you are working with Kathy they light up because she is thorough and provides them with information and specs in a timely manner. When our home was completed, we were left with the "house bible" that has every fixture, color, contractor contact and detail so if we were to need it we have a reference to look back on. I am extremely happy with our dream vacation home and Kathy was a huge part of making that happen." - Diane and Les Corieri
