To Whom it may concern;

Congratulations! If you are reading this you have met Kathy Morris and are considering her for your designer! We had the pleasure of meeting and hiring her in July of 07. She came recommended by our Architect and also from builders that we were considering for our new home.

Working with Kathy Morris was a breeze! We live out of town so we had very little face time and were able to do everything from e-mail and once a month visits.

Kathy is direct and fast! She listened to what we wanted in our home. She has current and imaginative ideas, connections for supplies and works painlessly with contractors. When you tell your builder you are working with Kathy they light up because she is thorough and provides them with information and specs in a timely manner.

When our home was completed, we were left with the "house bible" that has every fixture, color, contractor contact and detail so if we were to need it we have a reference to look back on.

I am extremely happy with our dream vacation home and Kathy was a huge part of making that happen. Feel free to call for a reference.

Sincerely,

Diane and Les Corieri
